Geriatric - Wikipedia

... Geriatric medicine is a medical specialty that deals with the health care of the elderly. It is a branch of medicine that focuses on the diagnosis, treatment, and prevention of diseases and conditions that are common in older adults. Geriatricians work in a variety of settings, including hospitals, nursing homes, and community-based care centers. They often work in collaboration with other healthcare professionals, such as nurses, social workers, and pharmacists, to provide comprehensive care for their patients. The field of geriatrics is constantly evolving as the population of older adults continues to grow and as new research and treatments emerge.
