Bird migration is the regular seasonal movement, often north and south along a flyway, between breeding and wintering grounds. Many species of bird migrate. Migration carries high costs in predation and mortality, including from hunting by humans, and is driven primarily by availability of food. It occurs mainly in the northern hemisphere, where birds are funneled on to specific routes by ...

Human migration is the movement by people from one place to another with the intentions of settling, permanently or temporarily in a new location. The movement is often over long distances and from one country to another, but internal migration is also possible; indeed, this is the dominant form globally. People may migrate as individuals, in family units or in large groups.

Is there a Growing Regional Divide in India? The North India-South India Divide became a topic of debate recently when former Chief Minister of Karnataka Siddaramaiah raised the issue of North developing at South's expense. This is what Siddaramaiah had said Historically, the South has been subsidizing the north. Six states south of the Vindhyas contribute more taxes and get less.
