The term "missing women" indicates a shortfall in the number of women relative to the expected number of women in a region or country. It is most often measured through male-to-female sex ratios, and is theorized to be caused by sex-selective abortions, female infanticide, and inadequate healthcare and nutrition for female children. It is argued that technologies that enable prenatal sex ...

GLOBAL INCIDENCE AND TRENDS During 2010-2014, an estimated 56 million induced abortions occurred each year worldwide. This number represents an increase from 50 million annually during 1990-1994, mainly because of population growth. As of 2010-2014, the global annual rate of abortion for all women of reproductive age (15-44) is estimated to be 35 per 1,000, which is a

The Women's March was a worldwide protest on January 21, 2017, the day after the inauguration of President Donald Trump. Tensions rose due to statements made by Donald Trump, considered by many as anti-women or otherwise offensive. [13] It was the largest single-day protest in U.S. history. The goal of the annual marches is to advocate legislation and policies regarding human rights and other ...

Eating disorders are serious but treatable mental and physical illnesses that can affect people of every age, sex, gender, race, ethnicity, and socioeconomic group. National surveys estimate that 20 million women and 10 million men in America will have an eating disorder at some point in their lives. While no one knows for sure what causes eating disorders, a growing consensus suggests that it ...
