Division " Sharing Equally " Picture Division " 14

Like the natural numbers, \mathbb{Z} is closed under the operations of addition and multiplication, that is, the sum and product of any two integers is an integer. However, with the inclusion of the negative natural numbers, and, importantly, 0, \mathbb{Z} (unlike the natural numbers) is also closed under subtraction. The integers form a unital ring which is the most basic one, in the following sense: for any ...

CROSSWALKS " A correlation linking Cathy Fosnot's Contexts

Division is one of the four basic operations of arithmetic, the others being addition, subtraction, and multiplication.. At an elementary level the division of two natural numbers is "among other possible interpretations" the process of calculating the number of times one number is contained within another one.: 7 This number of times is not always an integer, and this led to two different ...
