

nanoporous gold from an pdf

Nanoporous materials consist of a regular organic or inorganic framework supporting a regular, porous structure. The size of the pores is generally 100 nanometers or smaller. Most nanoporous materials can be classified as bulk materials or membranes. Activated carbon and zeolites are two examples of bulk nanoporous materials, while cell membranes can be thought of as nanoporous membranes.

Nanoporous materials - Wikipedia

The scientists, David Cohen-Tanugi and Jeffrey C. Grossman of MIT, have published their study on water desalination using single-layer nanoporous graphene in a recent issue of Nano Letters ...

Nanoporous graphene could outperform best commercial water

Lyme disease is the most common tick-borne disease in North America, and is transmitted by blacklegged ticks carrying Borrelia bacteria. Infection by a tick takes at least 24 hours because of the time required for the bacteria to travel from the tick midgut to its salivary glands.

A supercapacitor (SC) (also called a supercap, ultracapacitor or Goldcap) is a high-capacity capacitor with capacitance values much higher than other capacitors (but lower voltage limits) that bridge the gap between electrolytic capacitors and rechargeable batteries. They typically store 10 to 100 times more energy per unit volume or mass than electrolytic capacitors, can accept and deliver ...

The interplay of inherent electrochemistry and surface species is investigated to maximize hydrogen production on amorphous MoS_x across the pH spectrum. The most active HER species are found to be the S-depleted molybdenum oxysulfide moieties, only stable in mildly acidic to neutral pHs (4 ≤ pH < 7).

Electrochimica Acta is an international journal. It is intended for the publication of both original work and reviews in the field of electrochemistry. Electrochemistry should be interpreted to mean any of the research fields covered by the Divisions of the International Society of Electrochemistry listed below, as well as emerging scientific domains covered by ISE New Topics Committee.
