Science in a broad sense existed before the modern era and in many historical civilizations. Modern science is distinct in its approach and successful in its results, so it now defines what science is in the strictest sense of the term. Science in its original sense was a word for a type of knowledge, rather than a specialized word for the pursuit of such knowledge. In particular, it was the ...

The nature versus nurture debate is about the causes of differences between people.. Like all living things, people have inherited innate qualities. There are also events or experiences which happen during life. 'Nature' describes the effect of a person's genes, whereas 'nurture' describes whatever happens during life.. In the language of population genetics, the heritability of a feature is ...
