High Strength Steel Pipes: New Developments and Applications

The New York City Housing Authority (NYCHA) provides housing for low- and moderate-income residents throughout the five boroughs of New York City. NYCHA also administers a citywide Section 8 Leased Housing Program in rental apartments. These communities are often referred to in popular culture as "projects", or "developments". These facilities commonly have large income disparities with their ...

Algorithmic trading is a method of executing a large order (too large to fill all at once) using automated pre-programmed trading instructions accounting for variables such as time, price, and volume to send small slices of the order (child orders) out to the market over time. They were developed so that traders do not need to constantly watch a stock and repeatedly send those slices out manually.
