nlp simple neuro linguistic pdf

Neuro-linguistic programming (NLP) is an approach to communication, personal development, and psychotherapy created by Richard Bandler and John Grinder in California, United States in the 1970s.NLP's creators claim there is a connection between neurological processes (neuro-), language (linguistic) and behavioral patterns learned through experience (programming), and that these can be changed ...

Neuro-linguistic programming - Wikipedia

The methods of neuro-linguistic programming are the specific techniques used to perform and teach neuro-linguistic programming, a pseudoscience which teaches that people are only able to directly perceive a small part of the world using their conscious awareness, and that this view of the world is filtered by experience, beliefs, values, assumptions, and biological sensory systems.
